60	.450 No. 2 Westley Richards Free State Martini Rif	R 10000,00
	A lovely old gun in amazing condition for its age. The action is peculiar to Westley Richards and is sometimes referred to as the 'Free State Martini; back then the OVS purchased many in military guise. This is an out-and-out sporting rifle. The bore of the 28" (712mm) barrel is very good and could clean up further. The standing "V" sight is supported by 7 others, out to 800yds. On the massive 14mm wide top rib are inch markings from 8 to 20 inches, presumably for measuring trophies. At the rear of the rib is 'For No.2 Case'. The drop lock action contains a swinging hammer instead of the Martini's spring-powered striker. The safety lever on the RHS of the action is standard, but blocks the trigger not the hammer. Excellent scroll engraving surrounds the lhs - 'Westley Richards Patent Rifle, 170 New Bond Street, London'. The dark dense walnut is expertly cut to a 20LPI pattern around the hand and a wrap around pattern on the fore end which is held in place by a wedge cross bolt VVGC,
